

# I Do

Weezer

All the times you came  
I should've ran away

You told me that you'd always love me  
You told me that you'd always love me

And the games you played  
Were meant to lead me on

You told me that you'd always love me  
You told me that you'd always love me  
Always, oooh always  
I do

You told me that you'd always love me  
You told me that you'd always love me  
Always, oooh always  
I do

Never more again  
Will I believe the sun
