

O Girlfriend

Weezer

I miss you
And I wonder how you feel about me too
Do ya miss the way we play
And waste our time away
Suddenly
We're apart and I can't see you every night
Though we fight
I love you so much
Now I can't feel your touch

O girlfriend
That's the end
And I'm lost without your love
O love

In your arms
I was happy as a little boy could be
Taking pills and mellowing out
Now I just want to shout
For your love
Cause I'm drifting further from you everyday
Driving by your place every night
I used to feel alright

O girlfriend
That's the end
And I'm lost without your love
O love

Fillin' fantasies every night
When I dream to be alright
O love
O love

(Approximately 16 measure guitar solo)

O girlfriend
That's the end
And I'm lost without your love
O love

In your arms
I was happy as a little boy could be
Taking pills and mellowing out
Now I just want to shout
(Do do do do do do do do do do)
Now I just want to shout
(Bling de do do do do do do do do do)
Now I just want to shout
