

Peace

Weezer

More and more
I can't say no
So afraid of letting go
If there's something
I can grab
You can bet
I'll pay the tab
Counting all the flowers
Waste the precious hours
I need to find some peace

All these problems on my mind
Make it hard for me to think
There is no way I can stop
My poor brain is gonna' pop
And I don't have a purpose
Scattered on the surface
I need to find some peace

And all the broken tethers
We can bring together
I need to find some peace

I need to find some peace
I need to find some peace
