## **Run Away**

Weezer

I thought you would always be my friend Now everything must end And so the world moves on And everything must change When I'm looking at the night sky, I can see my soul I see the little lights flashing at each other up above Is it us making love in the Milky Way Long before we threw it all away? Hey, you We're running out of time And you know it's true I just want to run away from here with you Tonight... Tonight... Sometimes I wish I was a house at the end of the block You could smash all my windows with the throw of a rock And make the hurt go away, come again some other day There's so much I want to say about You We're running out of time And you know it's true I just want to run away from here with you I thought you would always be my friend But everything must end And so the world moves on Cause everything must change And now you're all alone You're sitting by the telephone You wonder why Everyone will cry Tonight... Tonight... Tonight... Tonight...
