

Wimple Witch

Wellwater Conspiracy

The moss, the sand, the trees
I wanna feel it one time
Your hand upon my knee
I wanna feel it one time

Got to feel it, one sigh(?)
Now that you're all mine
Got to feel it, got to feel it

People fighting to hug a tree
I wanna see it one time
A world community
I wanna see it one time

Got to see it, one sigh(?)
Now that you're all mine
Got to see it, got to see it

I cross the streets with old ladies
I wanna be there one time
Looking out for you and me
I wanna feel it one time

I still keep it over my shoulder
He don't look like a friend
Too many people around
They wanna end their own days
