

Before It's Too Late

Westlife

All things come to those who wait
Sometimes they just come too late
And if we never speak again
I don't wanna make that mistake
We never seem to find
The place or time
To say what's on our minds so

R: Tell me everything now
Don't leave anything out
I'll tell you all my fears
My mistakes
Before it's too late

I don't wanna wake up one day
Wondering if I shied away
From something that once seemed so hard
One thing that's so simple to say
Why do you always hide
Your tears when you cry?
Isn't it time you try to

R: Tell me everything now...

Before it's too late
Before it's too late

R: Tell me everything now...

Before it's too late
Before it's too late
