

# Heal

Westlife

Kian:

Even though you're near me  
I need you far away  
To be an ocean  
To build another way

Bryan:

I'll be broken  
And I know it  
But I just can't seem to find  
Another way

All:

Though you want to  
Though you try to  
You can't stop the rain  
For the first time  
It's not you  
Who can heal me

Bryan:

I need some distance  
To find another road  
It's not so easy  
Sorrow, such a heavy load

Nicky:

I'll be broken  
And I show it  
But I'm gonna have to live  
Without you here

All:

Though you want to  
Though you try to  
You can't stop the rain  
For the first time  
It's not you  
Who can heal me

Shane:

Poets say  
As time's a case  
A broken souls were mend  
But you would come around again  
So my sorrow's gonna end

Mark:

But it's not you...  
Heal me...  
But it's not you...  
Heal me...

All (Shane):

Though you want to (though you want to)  
Though you try to (thought you try to)  
You can't stop the rain

For the first time  
It's not you  
Who can heal me

Though you want to (though you want to)  
Though you try to (thought you try to)  
You can't stop the rain  
For the first time  
It's not you  
Who can heal me  
Heal me
