

# I'm Missing Loving You

Westlife

Bryan:

I can figure it out in my head  
Nearly time that we put this to bed  
It feels like its over  
I'm tired and a mess  
You forgive me for my big mistake  
Then keep throwing it back in my face  
We'll both end up lonely  
If we cant put this straight

Well I guess it might seem  
I don't want you  
But I still need you now

R: I love it when you fall asleep at night  
Coz I can hear the bell that stops the fight  
I know that when the darkness turns to light the fight will take over  
I'm missing loving you  
Cant stand living with you  
But don't wanna live without you  
I'm missing loving you

Mark:

Well we first started out like a faze  
Now its come to its changing ways  
Acting so crazy, but sorrys come too late

Seems you started to feel like a fool  
Telling all of our friends that were cool  
Truth is I'm lonely  
Even though your by my side

And I guess we might as well just end this  
Coz I don't feel you now

R: I love it when you fall asleep at night...

Shane:

I think about the future now  
Ill stand by you forever

Mark:

But baby you just gotta let me know  
Hey yeah

Bryan:

I love it when you fall asleep at night  
Coz I can hear the bell that stops the fight  
I know that when the darkness turns to light the fight will take over

All:

Cant stand living with you  
But don't wanna live without you

R: I love it when you fall asleep at night...
