

On The Wings Of Love

Westlife

It's good to know
I love your love
which share for way the wind blows
our guiding light
that would shine on
through the darkest night

When the world seems like it's full of strangers
and I feel as if I lost my way

You lift me up on the wings of love
taking me highest still with every touch
when ever I'm weak, honey
you take me there again
on the wings of love

It's all in me
when you hold me
and whisper tenderly
that I'm the one
you love forever
what else could I want

Even life where we are going changes
and when the dreams I had get swept away

You lift me up on the wings of love
taking me highest still with every touch
when ever I'm weak, honey
you take me there again
on the wings of love

(I'm flying high)
It's all I need when you hold me close
and you whisper tenderly

On the wings of love
highest still with every touch
when ever I'm weak, honey
you take me there again
on the wings of love

You lift me up on the wings of love
highest still with every touch
when ever I'm weak, honey
you take me there again
on the wings of love

On the wings of love
