

# The Difference

Westlife

I wake my faith shaken inside  
Images of you race to mind  
Did I forget I meant to tell you something?  
Only half 'til you have to fall  
Only whole when you're seeing it all  
Oh you saved for something me

Chorus:

Between lost and found  
You showed me the difference  
Between safe and sound  
You showed me the distance  
Oh I was sliding, safe but I was hiding out  
Oh I fell I'm not down  
You showed me the difference  
Everything was slipping right through my hands  
Hard to find any place to land  
Clouds don't cover me where I stand anymore  
Only half 'til you think you lost  
Only whole when you're reaching across  
You saved something for me

Chorus

You resurrected me  
Eyes wide open to dream  
In scattered pieces when you found me

Chorus

You showed me the difference  
You showed me the difference
