

Turn Around

Westlife

1. Some people are lucky baby
I guess I am to, love found me
And I found you
And every time I think it can get better
You do something new
And I'm renewed

*: And when it gets cold and I think its over
Look what you go and do

R: Every time I turn around, you give me a reason
For feeling the way that I do
Every time I turn around, you give me a reason
To put my faith in you
Even when you let me down, I forgive you
'Cause I know that you're feeling it to
Anytime I turn around, you make me believe in
The things that I already knew

2. You wrapped me up in kisses baby
Head to toe let the whole world stare
I don't care
You make me breakfast in bed just to show me
No-one wants me more, I'm secure

*:

R: Every time I turn around, you give me a reason...
Turn around, turn around, turn around
Turn around, turn around, turn around

'Cause you know and I know
That it's hard to let go so why not hold on
Hold on to us
'Cause you know and I know
That it's hard to let go so why not hold on

R: Every time I turn around, you give me a reason...

*: Every time I turn around, turn around, turn around,

*: Even when you let me down, turn around, turn around,

*: Anytime time I turn around, turn around, turn around,

*: Every time I turn around
