

# Angel Eyes

Wet Wet Wet

I pay the price for cheap advice

Sick of leaving in the morning  
With the night you gave away  
So now I'm gonna take out all I can get  
With those angel eyes  
You make saints do sins all the time  
Say I'm gonna stay, home and away

well oh well  
When I said I'd catch you when you're falling  
I'd have my heart open wide  
And you who's not naive I thought  
said following my heart

People say I'm not so automatic  
People say I'm not so systematic  
But when I'm down I'm in manual on  
Time and time again I walk on by  
With the look of love

And with those angel eyes  
You set me on fire  
And with those angel eyes  
You set me on fire

The saddest thing I've ever seen on my TV screen  
Was a dying man who died for his team  
The toughest thing I've ever heard  
Was that newborn scream in this naked world

People say I'm not so automatic  
People say I'm not so systematic  
But when I'm down I'm in manual on  
Time and time again I walk on by  
With the look of love

And with those angel eyes oh oh  
You set me on fire  
And with those angel eyes oh oh  
on them baby

gonna tell the world  
gonna tell the world  
gonna tell the world

Say I'm gonna stay home and away  
Should a little loving make you smile girl

People say I'm not so automatic  
People say I'm not so systematic  
But when I'm down I'm in manual  
Time and time again I walk on by  
With the look of love

And with those angel eyes  
You set me on fire baby
