

Goodnight Girl

Wet Wet Wet

You can hear me so clearly
And see how I try
You feel me, so heal me
And tear me apart

I won't tell a soul
I won't tell at all
Do they have to know
About my goodnight girl

Caught up in your wishin' well
You hopes inside it
Take your love and promises
And make them last

You keep me so near you
And see me so far
And hold me and send me
And deep in your heart

It doesn't matter how sad
I made you
Doesn't matter how hard
I try

Just remember the same
Old reason
Reflected in your eyes
You said you wanted me

Caught up in your wishin' well
Your hopes inside it
Take your love and promises
And make them last
