

I Want You

Wet Wet Wet

Close your eyes, free your mind
Stay with me tonight
Lay me down, hold me tight
Say you're mine tonight
With all my heart

Girl I want you
Don't keep me hanging on
Stealing moments from your life
Girl I need you
To be there in my heart (in my heart)
Loves just enough to make it evermore

Broken hearts, distant love
They don't go too far
You know you gotta hold my hand
Show me all the wonders of our love
Way deep inside
With all my heart

Girl I want you
Don't keep me hanging on
Stealing moments from your life
Girl I need you
To be there in my heart (in my heart)
Loves just enough to make it evermore
Wooh

Girl I want you
Don't keep me hanging on
Stealing moments from your life
Girl I need you
To be there in my heart (in my heart)
Loves just enough to make it evermore

Girl I want you
Don't keep me hanging on
Stealing moments from your life
Girl I need you
To be there in my heart, well
Loves just enough to make it evermore
