

If Only I Could Be with You

Wet Wet Wet

And outside the wind is blowing
Through the thoughts in my mind
Thinking a feeling is growing
But inside my heart I'm alone
I have a heart, a heart for a woman
I have a promise, of this I will swear
And I have a love that won't be forgotten
I have a life that's going nowhere
I just wanna be with you
Hold you like I used to do, time after time, yeah
Give my heart and soul to you
And only if you wanted to
If only I could be with you

I hear the wind whisper your name
Taking my thoughts again far away
I'm dreaming of living a life full of love
And you out there, calling my name, saying
I just wanna be with you
Hold you like I used to do, time after time, yeah
Give my heart and soul to you
And hoping that you feel it too
If only I could be with you

I walk the streets so all alone,
Holding hands with a distant past
And how long's it gonna last, could it be forever
She can't hear me, she can't hear me
If only (only)
If only I could be with you

Just a little time with you, yeah

I just wanna be with you
Hold you like I used to do, time after time, yeah
Give my heart and give my soul to you
And only if you wanted to
If only I could be with you
Yeah, yeah, yeah
Time after time, yeah
Give my heart and soul to you
And hoping that you feel it too
If only I could be with you
