In Every Heart (A Fire Burns)

Wet Wet Wet

I can hear the sound of crying in the air
I can see the tears have fallen everywhere
In every heart a fire burns
And melts my pain away

I can see a river take you away from me
I can see the tide is changing, change for me
In every heart a fire burns
And melts my pain away

And hearts are lost, and hearts are found
But where the home fires burn
They burn for me, they burn for me

In every heart a fire burns
And melts my pain away

And hearts are lost, and hearts are found
But where the home fire burns
They burn for me

I can see the lights of my town shine for me
I can feel you in my heart, you're there for me
In my heart a fire burns
And melts my pain away
In my heart a fire burns

And melts my pain away
And melts my pain away
And melts my pain away
