

Just Like Any Other Day

Wet Wet Wet

Going home is never easy for me
And all alone and the drinks they are on me
I'm climbing up on golden hills
Down silvery streets by the city lights
Hey!

It's just like every other day
Where people stop and people say
It's just like any other day
I'm pleased to meet you
I hope I make your day

Small town plays with the shadows of the city
Sleepless nights for the suffers you've given
I'm climbing up on golden hills
Down silvery streets where the city lies
Hey!

It's just like every other day
Where people stop and people say
It's just like any other day
I'm please to meet ya

Everytime I stopped I'd realise
That this town is breaking down inside
It's breaking down inside
I'm pleased to meet you
I hope I make your day

Going home is getting easy for me
I'm all alone and the drinks they're still on me
Hey!

Just like every other day
Where people stop and people say
It's just like every other day
Where people stop people say
It's just like every other day
Yeah
Pleased to meet ya
I hope I make your day
Hey, hey, yeah
