

Keys To Your Heart

Wet Wet Wet

You might say
You don't love me
That might be right
Say that you wanted me
Say that you needed me
Say that you wanted me

And I said now hold me
Please hold me
Make this seem right
All through the night
I said hold me
Please hold me
Yes you can try just a little
For you to make it right

Holding on for so long
Gets me the keys to your heart

So let me take a little while
To tell you about heaven, heaven in my life
It could be a secret
It could be a lie
It's a case of holding on til I die

Now I said now hold me
Please hold me
Make this seem right
All through the night
And I said now hold me
Please hold me
Yes you can try just a little
For you to make it right

Holding on for so long
Gets me the keys to your heart
Holding on for so long
Gets me the keys to your heart

And I said now hold me
Please hold me
Yes you can try just a little
Please try just a little
Please try and you will see

Holding on for so long
Gets me the keys to your heart
Holding on for so long
Gets me the keys to your heart
You gotta give a little
To get the keys to your heart
Gets me the keys to your heart
