

Real Life

Wet Wet Wet

In my mind, you're moving around my head
And the world I'm living in, I can't draw the line
In my mind, can't get her out of my head
There's nothing left for you to say to me
I just don't know who to be
It's killing me

She makes me feel like I've been born again
She makes me feel like I'm in real life
She makes me feel that there is nothing wrong
She makes me want to be in real life

In my mind, reality's out of place
I'm not even sleeping
But I think I'm in a dream
In real life, in real life, in real life

Feels like a lifetime away
A moment that was lost
It's my broken feelings that lie
Abandoned in your heart

In my mind, she seems so real to me
There's just a shadow where you used to be
Now there's nothing left to see
It's killing me

She makes me feel like I've been born again
She makes me feel like I'm in real life
She makes me feel that there is nothing wrong
She makes me want to be in real life

Real life
Real life
She makes me want to be in real life
Real life
