

# Straight From My Heart

Wet Wet Wet

And turn the lights down low,  
And take it easy  
Help me make it through the night, well  
The look in your eyes tonight  
Kills me completely  
Cuts me deeply like a knife

I thought you'd understand  
I need a helping hand  
And I can make it on my own  
But you can take it  
Straight from my heart  
Comes a love so untrue  
Straight from my heart  
I can't help loving you  
And can't you see that love is blind.

Oh yes it is

You've been talking  
You've been talking  
In the heat of the night  
You've been telling me  
Everything's gonna be alright, yeah  
Don't whisper to a stranger  
Or your brand new friends  
Just open up your heart  
Open up and let me in

I thought you'd understand  
Why I need a helping hand  
And I can make it on my own, yeah  
But you can take it  
Straight from my heart  
Comes a love so untrue  
Straight from my heart  
I can't help loving you  
Don't close your eyes  
Can't you see that love is blind.

Why do you tell me lies  
You keep me up all night  
Thinking things ain't right  
Oh I wanna hold you tight, baby  
All through the night  
Yeah, hey  
Can't you see that love is blind  
Oh, yes it is

Turn the lights down low,  
And take it easy  
Help me make it through the night  
Yes you can, yes you can  
The look in your eyes tonight  
Fills me completely  
Cuts me deeply like a knife, yeah

Straight from my heart  
Comes a love so untrue  
Straight from my heart  
Just can't help loving you  
Straight from my heart  
Comes a love so untrue  
Don't close your eyes  
Can't you see that love is blind.
