

# Temptation

Wet Wet Wet

When the big guns start to shooting  
With their bullets of deception  
With the smile upon your face  
Going from second hand to almost new  
Well I try to live life eye to eye  
But I say I find it far too tall

Show me one more sign  
Give me one more time  
Cos you give me, you give me  
You gimme, gimme, gimme temptation

Sing along, sing along baby  
Sing along for the love of the children

And if this was to be true  
Say I'd give all the tea in china  
And maybe, all the tulips  
In amsterdam

Well I try to live life eye to eye  
But I say I find it far too tall

Show me one more sign  
Give me one more time  
Cos you give me, you give me  
You gimme, gimme, gimme temptation

First you make me move  
Until I'm so damn close  
Take me back again, take me back again  
Say I'm mighty thankful  
But it's much too easy  
Paying dues and learning vices  
But no, but no, but oh no  
You won't waste my angry spirit

Show me one more sign  
Give me one more time  
Cos you give me, give me  
You gimme, gimme, gimme temptation

I want peace, love and understanding  
To last throughout my life

Sing along, sing along baby  
Sing along for the love of the children
