

## Thru' The Night

Wet Wet Wet

Can you tell me  
Is there anybody out there  
To hear me  
I just want  
Someone who can listen to me  
Just like you

Suddenly, I stopped counting all my blessings  
One by one, they come undone  
And I need someone

Just like you, someone to watch over me  
Someone like you  
To help me through the night

I look at you  
And everything I need to know is  
There for me  
When my world  
Feels like there's something missing from it  
When you're not here

Suddenly, I stopped counting all my blessings  
One by one, they come undone  
And I need someone

Just like you, someone to watch over me  
Someone like you  
To help me through the night

If you would only hear my words (Hear my words)  
Then you would see (Then you would see)  
That I need someone

Oh, oh, oh, oh, oh  
Just like you, someone to watch over me  
Someone like you  
To help me through the night

Oh, I need someone  
Oh, I need someone  
To help me through the night
