

# Too Many People

Wet Wet Wet

He took one step over the line  
He didn't know what he would find  
It's just a matter of time  
He's gonna blow his mind  
He tells you this he's telling you that  
He's been lying behind your back  
You gotta face the facts  
He don't know his mind

Too many people  
Walking the line  
Trying to run as fast as they can  
Too many people  
Crossing the line  
Untill they run out of time...  
Out of time...

He thought he was one of a kind  
But growing up can be a dangerous time  
He's got a mind of his own and his world is one big show  
He's caught up in the headlines  
He says that he's alright  
He says he's got his feet on the ground  
It's just a matter of time  
Before he blows his mind

Too many people  
Walking the line  
Trying to run as fast as they can  
Too many people  
Crossing the line  
Until they run out of time...  
Out of time...

There's people lost in this poor world with hunger in their eyes  
There's people lost in this sad world sleeping under the sky...  
It's just a matter of time...

Too many people  
Walking the line  
Trying to run as fast as they can  
Too many people  
Crossing the line  
Until they run out of time  
Too many people
