

## Island

## Wet

Today New York feels like an island  
Cool and wet, take me out  
Cool and wet, lay me down  
I'm on fire, put me out

Don't you hold me, since you didn't  
Say you need me, cool and wet  
Calling for it, cool and wet  
Say you want me  
Just say the words

Today your room felt just like the ocean  
Cool and wet, lay me down  
Cool and rain, life flows away  
You feed this flame and walk away

Don't you hold me, since you didn't  
Say you need me, cool and wet  
Calling for it, cool and wet  
Say you want me  
Just say the words  
Just say the words  
Just say the words  
Just say the words

Cool lines move me with their purpose  
Forth and back, I fall off track  
You leave this fire and don't look back

Don't you hold me, since you didn't  
Say you need me, cool and wet  
Calling for it, cool and wet  
Say you want me  
Don't you hold me, since you didn't  
Say you need me, cool and wet  
Calling for it, cool and wet  
Say you want me  
Just say the words  
Don't you hold me, since you didn't  
Say you need me, cool and wet  
Calling for it, cool and wet  
Say you want me
