

## You're the Best

Wet

All I know is  
When you hold me  
I still feel lonely  
Lonely when you hold me

All I know is  
I can't forget  
Hold these arms around me  
Think of how you found me  
Found me in those arms  
So large and dark and holding on

All I know is  
When you hold me  
Are you thinking Rosalie  
Or is she in me?  
Another vase

But, baby, you're the best  
We'll figure out the rest  
And maybe it's a test  
I think we bought ?

All I know is  
When we're sleeping  
Are friends, they creeping  
And all the rest  
All I know is  
You hardly know me  
But you still love me  
And all the rest

But, baby, you're the best  
We'll figure out the rest  
And maybe it's a test  
I think we bought ?
