

I Swear This Is The Last Time

Whatever It Takes

I could watch you fall again, just like last time
Worlds spinning on their end, like last time
I could watch you lose again
I won't waste my time again

And so ill bet it all
Everything I have
All on black
Spin and wash away
All I had left

I could watch you drink it all, like the last time
I even take a few down with you, just like the last time
And laugh about it all
I'm gonna watch you lose it all

And so ill bet it all,
Everything I have
All on black
Spin and wash away
All I had left

Its the last time
Just like the last time
