

The Great Escape

Whatever It Takes

Time is now
Stop asking how
And living in past moments

A great escape
Missed opportunity
To break new ground

Rise
To your feet

So you've made it out ok
Picture perfect scenes
With bitter endings

Cause while you sleep
And think "its safe to be me"
There is danger

You can't stop me from crumbling
Underneath the weight
You can't stop me from crumbling
Pressure that I can't take

You can't and won't stop me
