

## The Great Escape

Whatever It Takes

Time is now  
Stop asking how  
And living in past moments

A great escape  
Missed opportunity  
To break new ground

Rise  
To your feet

So you've made it out ok  
Picture perfect scenes  
With bitter endings

Cause while you sleep  
And think "its safe to be me"  
There is danger

You can't stop me from crumbling  
Underneath the weight  
You can't stop me from crumbling  
Pressure that I can't take

You can't and won't stop me
