

## Write For Your Life

## Whatever It Takes

Taken for all its worth  
A couple chords and a few words  
Sing our song together  
Sing at the top of our lungs

Having met and having me change  
Was still the best thing,  
Through all these days

[Chorus]  
Cause, you live, you learn  
And you'll make mistakes  
And the writing  
Is only a cheap escape  
(from pain)

Well I know ill never make things right  
And I'm fine with this  
As long as you sleep well at night  
So sleep well at night  
Cause what's been said I surely meant  
And I'm happy for you  
If you're happy without me  
Alright

[Chorus]

It took losing you  
To find me
