

Freedom Song

Wheatus

(dah, dah, dance with me)

(ooh, oooooho (4x))

I am cold I am old I am poor on the floor with the door slammin
g in my face

watching all of my love erased, brother I will always wonder wh
y

You were right I was wrong I could never get along with the sta
rs in your outer space

Watching all of the light erased, brother I will always wonder
why.

you can blame your whole damn life on me and then run away so e
asily

If you turn and look then you will see what may come as a surpr
ise.

You'll see me dancing me around in circles coz your hurt will n
ever ever work on me

That's because this is a freedom song and I don't care where it
all went wrong, its all about getting away from you just like
I always wanted to

Its not enough that I paid your price, you're gonna need me to
make everything alright, aren't you?

Well my brother that's something I can't do. (ooh, oohoo)

I am poor I am old I am cold on the floor you're out the door s
taying at someone else's place

I'm watching all of our love erased, lover I will always wonder
why

you were right I was wrong I could never get along with the sta
rs in your inner space

Watching all of our love erased, lover I will always wonder why
.

You can blame this whole damn thing on me.

Run away with someone new you meet. Know that he'll be all I co
uld never be.

Oh then why does it make you cry to see me dancing round in cir
cles

coz your hurt will never ever work on me.

that's because this is a freedom song

and I don't care where it all went wrong

its all about getting away from you, just like I always wanted
to

Its not enough that I paid your price, you're gonna need me to
make everything alright.

Aren't you?

Well now lover that's something that I can't do.

I know I said it's a freedom song, but now I think that I got i
t wrong.

Its not about getting away from you, not like I always wanted t
o.

And now I know that I paid the price coz I won't need you to make everything alright.

And I know that it's just something that you can't do.
