

Every Single Day & Night

Whigfield

All I need is your love and I'll be there
Anytime you need me, I'll be anywhere
There's no limit to distance and to time
Anything you need, I will be in your mind
All I need is your love to make me feel
Like I walk on air as if I'm dreaming
Anything that you do is oh so right
Every single day and every single night

Every single day and every single night
Every single day and every single night

All I want is you here, if I am blue
If I ever need you, I'll just call you
I adore you because I know you care
Everytime I need you you'll be anywhere
All I do when it's cold is call your name
You'll leave everything and you'll be on your way
You're the fire and flame inside my life
Every single day and every single night

Every single day and every single night
Oh-oh-oh
Every single day and every single night

Every single day
Every single day
Every single day
Every single day and every single night
Every single day and every single night
Every single day and every single night

Every single day and every single night
Every single day and every single night
