GIMME GIMME

WHIGFIELD

Day by day

I'm getting closer to you

There's a way

Somehow I gotta get through

Face to face

If I could have what I need

Then for sure all my love would be free

Oh yeah

Kiss by kiss

I'm getting close to your heart

And if this

Something good gotta start

Face to face

If I could say what I know

Then for sure all my loving would flow

Gimme gimme

Gimme the time of my life

Show me show me

Show me the love in your eyes

Gimme gimme

You got me feeling alright

So right so right oh yeah

Na na nananana

Nana na na na na

Na na nananana

Nana na na na na

Na na nananana

Nana na na na na

Na na nananana

Nana na na na na

Inside out

That's what I feel when you're there

Not a doubt

Boy I know that you care

Face to face

If I could have what I need

You would stay by me

Kiss by kiss

I'm getting close to your heart

And if this

Something good gotta start

Face to face

If I could say what I know

Then for sure all my loving would flow

Gimme gimme

Gimme the time of my life

Show me show me

Show me the love in your eyes

Gimme gimme  
You got me feeling alright
