

Lover

Whigfield

Got to show a little mercy now
For this crazy heart of mine
'Cos my lips are getting thirsty now
For a man I need to find

And baby now you are
My only forever
Let's get it together
'Cos baby now you are
I think you are an angel

I just wanna be your lover
your lover, oh yeah

I just wanna be your lover
discover, your love

If you move your body close to me
You can warm me up inside
You're the one I see in all my dreams
And I want you by my side

And baby now you are
My only forever
Let's get it together
'Cos baby now you are
I think you are an angel

I just wanna be your lover
your lover, oh yeah

I just wanna be your lover
discover, your love

I just wanna be your lover
your lover, oh yeah

I just wanna be your lover
your lover, your lover
