

Makin' My Day

Whigfield

A little love and a little care
So much love that i see in there
So open up, won't you let it all out
Cos what you feel, there's no doubt

And just a kiss and a little squeeze
Is all i need for the angel in me
And down inside you'll be feeling so fine
You'll feel so happy and smile

Come on baby you're makin' my day
Let's do it all forever, don't you go away
Come on baby you're makin' my day
Let's get it on together, you gotta stay

Come on baby you're makin' my day
You make me feel so happy i feel i could fly
Come on baby you're makin' my day
A wonderful sensation, it feels so nice

A little word whispered in my ear
Say anything just to keep me near
Show the emotion you feel inside
Bacause i'm feeling it too

And just a smile and a little love
Can brush away all the clouds above
Look to my heart and you're gonna see
Baby it's you - you that i need

Come on baby you're makin' my day
Let's do it all forever, don't you go away
Come on baby you're makin' my day
Let's get it on together, you gotta stay

Come on baby you're makin' my day
You make me feel so happy i feel i could fly
Come on baby you're makin' my day
A wonderful sensation, it feels so nice
