

Outside

Whigfield

Outside looking on the inside
Tell me what i'm doing, tell me where i'm going
Looking from the outside looking on the inside
Tell me what i'm doing, tell me where i'm going
Oh yeah

I'll step outside myself - get inside your heart
To see what you feel - feel what you see
You and no-one else, my baby
I can give you all i give
You are what i need to live

I'll get into your soul - well i can get a hold
I feel what you feel and want from me
The only way to know
My baby the emotion that you show
Cos you're the boy i know - i know

Outside looking on the inside
Tell me what i'm doing, tell me where i'm going
Looking from the outside looking on the inside
Tell me what i'm doing, tell me where i'm going
Oh yeah

Well baby i could do the things i see in you
I think it could be love - say that it's love
Don't want nobody else, my baby
If you give me what i need
Show me what you feel, you feel

Outside looking on the inside
Tell me what i'm doing, tell me where i'm going
Looking from the outside looking on the inside
Tell me what i'm doing, tell me where i'm going
Oh yeah
