

# Take Me To The Summertime

Whigfield

Take me to, take me to, take me to the summertime  
Take me to, take me to, take me to the summertime

Don't say it's a dream, that we're fate  
This has got to be real  
I don't want to wake and find you've gone away  
Say you like to be here and you care (and you care)  
I like having you near  
Cos you're there if I need your love

I believe you when you tell me  
That there is no one else but me  
And I know you won't deceive me  
So take me to the summertime  
I believe you when you hold me  
That there is no one else you dream  
And I know you won't deceive me  
So take me to the summertime

Take me to, take me to, take me to the summertime

Don't say it's a dream, that we're there (that we're there)  
Cos the way that I feel  
My emotions say you're more than just a friend  
Take Me To The Summertime Lyrics  
When the summer is here and you care (care)  
Then you'll not dissapear  
And you'll love me in the sun and sand

I believe you when you tell me  
That there is no one else but me  
And I know you won't deceive me  
So take me to the summertime  
I believe you when you hold me  
That there is no one else you dream  
And I know you won't deceive me  
So take me to the summertime

Take me to, take me to, take me to the summertime  
Take me to, take me to, take me to the summertime  
Take me to, take me to, take me to the summertime  
Take me to, take me to, take me to the summertime  
Take me to, take me to, take me to the summertime (oh baby)  
Take me to, take me to, take me to the summertime  
(in the summertime - Ooh yeah)  
In the summer time
