

# Brainwashed

## While She Sleeps

This is the resistance movement  
A new life for the executed  
The blackusted soul recruitment, brainwashed  
Turn it off, turn it off, turn it off

We're spilling our guts, we're spitting out blood  
Who's first in the river?  
Stop struggling, struggling  
You'll only sink further in  
They're throwing you in a lifeline, down to hell

They'll sing mislead, mislead, drain us of our  
Differences keep the freedom of life  
Under the gun they'll take our rights  
We'll take them back again

This is a death race, just another world trait of a broken system  
It's like the blind lead the blind to the wrong decisions  
Possessed by the pace of life, we'll burn a living  
They're running out of plots to burn  
The casualties, out of sight, out of mind

Mislead, mislead, drain us of our differences  
Keep the freedom of life under the gun  
They'll take our rights, we'll take them back again

We won't fail, we'll find a way  
We won't fail, we'll fucking find a way

Tell us how to think, tell us what we need  
Tell us how to live, show us who to be  
Another product of the system  
Turn it off, turn it off, turn it off  
We're being brainwashed
