

## Until the Death

## While She Sleeps

I put my trust in poison, to teach me how to live.  
I put my trust in darkness, to teach me how to see.  
This is for those who followed the free,  
To the end of the true and the trusting.  
Spit back in the safe, I found life in death.  
I chose my pain alone with honesty  
My home, my hate, have grown inside of me.  
We keep our past inside our reasons. We never gave up on us  
We are the grateful bleeding that live today.  
Dictations reigns in, our hope will never change a thing.  
I chose six until death, not a slave into the world,  
I chose sickness over health and it saved me every time,  
I chose this until death, not a slave into the world,  
I chose sickness over health and it saved me every time.  
Not alive with a reason, not hit by the need to refuse.  
I got called into freedom with the lost hordes and the blackest  
of youth.  
I put my trust in poison to teach me how to live,  
You're following to find your way into a worthless victory.  
Six until the death. Not a slave into the world  
I chose sickness over health and it's saved me every time,  
When I can't breath I know it's got the best of me.  
When I can't breath, the six will set me free  
I put my trust in poison, teach me how to live,  
Our hate inside out peace.  
I put my trust in darkness, teach me how to see,  
The hate that swallows the streets.
