## **Spiral Of Violence**

## Whiplash

From out of the norm, a winning battle plan And it's out of our hands
So the regiments form

The angel of war Unleashing terror

Who'll throw the first crushing blow Who will decide who has the last laugh Who will throw the last blow

One of a kind

Who's out of his mind He who thinks he holds all the answers Can destroy all mankind

Wareny
Heard cut through the sky
Flip of a coin turns heads you will live
Lands on tails you will die
Napalm
A nuclear bomb
A flamethrower and a hand grenade
And I'm back in Viet Nam
