

## So Much For Love

Whipping Boy

All she wants is to be remembered  
Everyday  
All he sees is his own reflection,  
Standin' in the way  
She says I wish we could kiss like we used to  
I wish we could be  
I wish we could just make time  
Stand still for me

So much for love  
When it's given away  
So much for love  
That it gets in the way

Like a summer breeze that turns chilly  
You're quick to change  
Reassurance now it don't come cheap  
Your crutch is to blame  
She said slow it down baby  
Or you'll come too fast  
Try too hard it won't last  
But that's the nightmare of your nightmare's past  
Easy to address

So much for love  
When it's given away  
So much for love

When you're livin' today  
Livin' this way

So much for love  
When it's given away  
So much for love  
That it gets in the way  
When you're livin' today  
Livin' this way
