

# Goodbye Girl

Whiskey Myers

There's an empty spot in my bed tonight  
Cause you don't live there anymore  
Time can't take me away from your heart  
But am I your last chore

Sweet harmonies still spinnin  
Like a worn out record inside my head  
And I cant listen to the same song  
Think I'd find another one instead

[Chorus:]

Too late tonight  
Here I come, goodbye  
My mistake for who you were  
Fallin' out of love with you  
Follow up and say we're through  
Goodbye to my whole world  
Goodbye girl

Have a trip out to the lake house  
Cant believe that I am here alone  
Moonlights dancin' on the water  
I swear [?] myself that I should move on

[Chorus]

Things are good down here in Texas  
Hope they're doing the same up in Tennessee  
If I can't have you hell I don't want you  
Coulda stuck around and now you're missing me

[Chorus]
