

## Shelter From The Rain

Whiskey Myers

When I gave my heart to you  
It was the only thing I had left to lose  
Storm clouds broke and the sunshine came  
You rode the storm and broke the chains  
Yea, you broke those chains  
Took me in out of the cold  
I curse the man that says nothing gold can stay

You're my shelter from the rain  
Aw, the rain

When you gave your heart to me  
There's always a take out on your sleeve  
Keep it steady and hold on, hey  
This simple love will never change  
Yea, it'll never change  
Yea, it'll never get old  
I curse the man that says nothing gold can stay

You're my shelter from the rain  
Aw, the rain  
The rain

Yea, you broke those chains  
Took me in out of the cold  
You were there through my rough and rowdy days

You're my shelter from the rain  
Aw, from the rain  
The rain  
From the rain

When I gave my heart to you  
It was the only thing I had left to lose
