

Home Together

White Denim

We'll go together
We should never be apart
And so you feel it
I'm willing to be there night and day
Just to bring you back home to me

We'll be forever
We should never be apart
And only for you
I'm willing to tie ourselves together
Just to bring you back home to me

We go together
We should never be apart
And if you're lonely
Don't worry I've always been waiting for you
Just to bring you back home to me

We go together
We go together
We go together
We should never be apart
We should never be apart
We should never be apart

We go together
We should never be apart

We'll be forever
We should never be apart
And so you feel it
I'm willing to be there night and day
Just to bring you back home to me

We'll be forever
We should never be apart
And only for you
I'm willing to tie ourselves together
Just to bring you back home to me

We go together
We should never be apart
And if you're lonely
Don't worry I've always been waiting for you
Just to bring you back home to me
