

# Home Together

White Denim

We'll go together  
We should never be apart  
And so you feel it  
I'm willing to be there night and day  
Just to bring you back home to me

We'll be forever  
We should never be apart  
And only for you  
I'm willing to tie ourselves together  
Just to bring you back home to me

We go together  
We should never be apart  
And if you're lonely  
Don't worry I've always been waiting for you  
Just to bring you back home to me

We go together  
We go together  
We go together  
We should never be apart  
We should never be apart  
We should never be apart

We go together  
We should never be apart

We'll be forever  
We should never be apart  
And so you feel it  
I'm willing to be there night and day  
Just to bring you back home to me

We'll be forever  
We should never be apart  
And only for you  
I'm willing to tie ourselves together  
Just to bring you back home to me

We go together  
We should never be apart  
And if you're lonely  
Don't worry I've always been waiting for you  
Just to bring you back home to me
