

Everyday

White Heart

I remember when I first heard the music play
it carried me off it just swept me away

Just hear the music
Gentle music
and now it's changing me today
How it's changing me always
It's creating a song that I can sing everyday

Let the song play louder
Let our hearts grow stronger now
the more we sing this song
everyday, everyday

It's there forever
ever and ever
Yet the song has never changed
It has never changed
It only gets better the more I sing it each day

Let the song play louder
Let our hearts grow stronger now
The more we sing this song
The more we sing this song
Let the song play louder
Let our hearts grow stronger now
The more we sing this song
everyday

Everyday is the only way
that you can really know Him
Everyday as you obey
and sacrifice to show Him
Everyday you can hear Him say
just how much He loves you

Let the song play louder
Let our hearts grow stronger now
The more we sing this song
The more we sing this song
Let the song play louder
Let our hearts grow stronger now
The more we sing this song
everyday
