

# Set The Bridge On Fire

White Heart

Break out of the dark land you live in  
Set the bridge on fire  
Cross over the deep, troubled water  
Set the bridge on fire

Take a long hard look all around you  
Is this the Promised Land?  
At first it always seems so alluring  
But see the trouble you're in

Storm clouds are building  
There's a shadow across your heart  
Hard thunder rolling  
Why would you ever choose to go this way again?

Break out of the dark land you live in  
Set the bridge on fire  
Cross over the deep, troubled water  
Set the bridge on fire

You've made this journey over and over  
It's got to come to an end  
For now you stand at the bridge of decision  
Between two different lands

Let the Spirit guide you  
He'll give you strength to step across  
Then burn the bridge behind you  
So you'll never ever go that way again

Break out of the dark land you live in  
Set the bridge on fire  
Cross over the deep, troubled water  
Set the bridge on fire

Stand up for the truth you believe in  
It is a higher power  
Strike back with the bright torch of freedom  
Set the bridge on fire

Break out of the dark land you live in  
Set the bridge on fire  
Cross over the deep, troubled water  
Set the bridge on fire

Stand up for the truth you believe in  
It is a higher power  
Strike back with the bright torch of freedom  
Set the bridge on fire
