

Change

White Lies

I'm going to miss the way I missed you
But I'm okay if you're okay
I've been lonely when I'm with you
But now I'm lonely all the same
If you need to find yourself
In the arms of someone else
I wish you on your way

But my love,
I've never been too good at change
I've never been too good at change

I'm gonna miss the way I kissed you
But I'll be brave if you'll be brave
And this is only the beginning
Although it feels just like the end
If you need to take some time
I'd surrender all of mine
I wouldn't make you stay

But my love,
I've never been too good at change (8x)
