

# I Will

White Lion

Let's pack the bags and head on our way  
There ain't no reason for us to stay  
We have done everything we can do  
Now it's time for me and for you

There is a big world waiting for us  
I hope we find what we have lost  
Look ahead and don't be afraid  
Where there is love there won't be hate

And where there is a rescue  
There shines a light  
So we both can find the way  
From wrong to right  
And into the fire  
We touch the flame  
And always remember we are the same

I will  
Run through your fire and into your hell  
I will  
Cause I am your father  
And you always be my son

So much stuff that we have done  
So many memories so much fun  
There ain't no limit to what we can do  
And I will listen and follow you

These chains can't be broken  
These walls won't come down  
And you have a place right here  
In this old town  
Right from the beginning  
A promise I made  
That we'd be together through love and hate

I will  
Run through your fire and into your hell  
I will  
Cause I am your father  
And you always be my son

My shining star my brave little one  
What would I do if you were gone  
I have given my life for you  
Do you know that I love you

I will  
Run through your fire and into your hell  
I will  
Cause I am your father  
And you always be my son

I will  
Run through your fire and into your hell  
I will

Cause I am your father  
And you always be my son
