Till Death Do Us Part

As we walk the golden mile Down the pretty aisle I know that you are mine

And there's nothin' in this world That I know I wouldn't do To be near you every day Every hour, every minute

Take my hand And let me lead the way

All through your life I'll be by your side Till death do us part

Baby, I'll be your friend My love will never end Till death do us part

When I wake up every day With you lyin' in my arms I wonder if I'm dreamin'

When I look into your eyes I just can't believe it's true That my heart belongs to you Baby, we can have it all

Girl, take my hand And let me lead the way

All through your life I'll be by your side Till death do us part

Baby, I'll be your friend My love will never end Till death do us part

There'll be good times And there'll be bad But I will stand beside you Woman, all the way

And through the years As life will put us through When snow will fall on winter nights I'll keep you warm inside Yeah, baby, I will

All through your life I'll be by your side Till death do us part

Baby, I'll be your friend My love will never end

White Lion

Yeah, baby, I'll be there All through your life I'll be by your side Till death do us part

Baby, I'll be your friend My love will never end Till death do us part

Yeah, baby, I'll be there Baby, I'll be there All through your life And I know that you'll be there I know that you'll be there Waiting for me

Yeah, baby, I'll be there Baby, I'll be there All through your life And I know that you'll be there I know that you'll be there Waiting for me
