

Drown With The Monster

White Lung

How to live high as the fort
Waiting to answer, keeping score
Take the side safe
For the play
You're gonna take my spot
Feast on me

Your water looks good on me now
Your water looks good on you
Drown with the monster
Drown with the monster
Drown with the monster

In the white land we get to see
You kiss my mouth waiting for these
And I get it, feelings for food
I looked at my soul, you wanted more
Take your science and sit there
Bullet deep in the brain
You're gonna take?

It's just amusing
It's just amusing
